Profile Summary

Aspiring full-stack web developer with strong expertise in the MERN stack and core Java. Proficient in building dynamic and responsive web applications, with hands-on experience in developing real-world projects. Successfully built Wanderlust and Real Time Chat App. Skilled in creating RESTful APIs, managing frontend state with React and implementing backend logic with Node.js and Express. Adept at problem-solving, debugging, and collaborating in team environments. Passionate about writing clean, maintainable code, optimizing performance, and continuously learning new technologies.

Education

- 10th Grade, GSHSEB **86%** SSC March, 2020
- 12th Grade, GSHSEB **84.33%** HSC March, 2022
- B.E., Computer Engineering, Government Engineering College, Gandhinagar
- CGPA: **8.47** Year: 2022-Current

Skills

- **Coursework:** DSA, Object Oriented Programming with JAVA, OS, DBMS, Software Engineering
- **Languages:** Java, JavaScript, Python
- **Tools & Technologies:** React.js, Bootstrap, Node.js, Express.js, MongoDB, MySQL, JSP, Servlets, JDBC, VS Code, GitHub
- **Soft Skills:** Teamwork, Communication, Time Management
- **Languages Spoken:** Gujarati, Hindi, English

Key Projects

- **Wanderlust - Destination Sharing Platform** 
Wanderlust is full stack web app built with MERN, featuring user authentication, destination listings, reviews, and photo uploads.
Focused on clean UI, RESTful APIs, and MongoDB integration.
- **Weather Application** 
Built a responsive weather app using React.js and CSS that shows real-time weather and 5-day forecasts for any city using the OpenWeatherMap API.
Implemented dynamic UI with React components, async API calls and responsive design using flexbox and media queries. Includes error handling, scrollable forecasts cards and modern styling.
- **Real Time Chat App** 
Built a Real Time Chat Application using React and Socket.io, supporting live messaging between users across different browsers.
Designed a clean, responsive interface with a lightweight Node.js backend and no database.
Focused on WebSocket-based communication without user authentication or presence tracking.

Experience

- **MERN Stack Web Developer Intern** CODTECH IT SOLUTIONS PVT. LTD
Duration: 1 month
Contributed to developing full-sack applications focusing on the MERN stack.
Implemented RESTful APIs for real-time data operations.

Certifications

- Java Programming
- Data Structures & Algorithms (DSA) in Java
- MERN stack
- Google Cloud Campaign
- Flipkart Grid 6.0
